

EAST END HOUSE COMMUNITY FOOD PROGRAM

3 YEAR PROGRESS (JANUARY 2023 - DECEMBER 2025)

In partnership with the Greater Boston Food Bank and the Cambridge Community Foundation, East End House installed an on-site commercial cooler & freezer for food storage in June 2024. Since then, we have dramatically increased our food ordering and rescue efforts, delivering fresh and healthy food across our programs. Please see the incredible progress we have made the past three years, allowing us to be recognized as a 2025 Healthy Pantry Champion by the Greater Boston Food Bank. We also sincerely thank United Way of Massachusetts Bay for their ongoing partnership and generous support, which plays a vital role in advancing the impact of East End House's programs.
